

## MPO To LC Outdoor Patch Cord Waterproof Armored

Generally used for outdoor laying, it has a ruggedly designed PU sheath and armor structure that can withstand high temperatures and is suitable for use in harsh environments. Waterproof optical fiber jumpers are similar to ordinary optical fiber jumpers, and there are many types, including simplex, duplex, 12-core, 24-core, etc. and a variety of optional connector types, such as LC, SC, FC, ST, MPO, etc.

Comply with ODVA (Open Equipment Suppliers Association) standards and meet IP66/67 environmental seal rating. It is a low-cost, most ideal choice for industrial, FTTA or other harsh environmental fields. The connector of the IP67 waterproof optical fiber jumper meets the IEC60603-7 interface standard. It can be used in conjunction with other similar mechanical locking systems. It is particularly suitable for use in harsh environments and to a certain extent to prevent rodents from biting.

Place of Origin: Shenzhen, China

Brand Name: OPTICO

Model Number: OP-FULLAXS--ODVA-LC-DX

Product name: MPO - LC Outdoor Patch Cord Waterproof

Application: FTTH FTTB FTTX Network system

IL: SM PC<0.3dB; SM APC<0.2dB; MM<0.3d

RL: SM PC>50dB; SM APC >60dB; MM>35d

Fiber Type: G652D,G657A2

Length: 1m, 2m, 3m, or customized

Operating Storage Temperature: -40C ~ +85C

Material of jacket: PVC/LSZH sheath

Connector type: ODVA LC

Certification: ISO,CE, RoHS, CPR

Supply Ability: 100000pcs/month

Packaging Details: 1pcs/PE bag, suitable quantity per cartone box

Port: Shenzhen

### Features:

Stable and high quality;

Meet IEC, JIS, Bellcore international standard requirements;

High performance and cost effective;

Mass and flexible production meeting various demand;

Custom assemblies available upon request;

OEM available upon request;

### Features:

(1) Ceramic Ferrule;

(2) High return loss;

(3) Low insertion loss;

(4) Good repeatability and and exchangeability

(5) Excellent Polished and 100% tested;

(6) Complying with Telcordia ,GR-326-Core, IEC and RoHS Standard.

### Mechanical & Material Data

<b>Application:</b>	FTTH FTTB FTTX Network system
<b>RL Cable Dimension:</b>	SM PC>45dB; SM APC >60dB; MM>35d
<b>Fiber Type:</b>	SM G657A2 or Customized
<b>Operating Storage Temperature:</b>	-40C ~ +85C
<b>Material of jacket:</b>	PVC/LSZH sheath
<b>Connector type:</b>	LC ODVA
<b>Certification:</b>	ISO9001:2015, OHSAS18001, ISO14001

### Certification:

CE

CPR

ISO

RoHS
